

BOMB USED TO FORCE NEGRO IN DALLAS TO MOVE

Difficulties Over Segregation Break Out After Gunpowder Attack.

DALLAS, Texas, Aug. 3.—Difficulties between whites and negroes in a section of the city known as Deere Park where attempts have been made to enforce a segregation ordinance broke out again today after a charge of gunpowder was exploded Wednesday night under the home of William Conner, negro.

Conner, according to the police, bought a home in Deere Park several weeks ago and occupied it notwithstanding the protests of members of the Deere Park Improvement association, proponents of segregation.

Conner was given a certain time in which to leave that residence, and when he refused to do so, a charge of gunpowder was exploded under the house.

It was because Conner failed to move that the attempt was made last night to blow up his home, police say.

Conner asserts that \$50, part of the purchase money, is yet due him from a realty company.

The city also confessed judgment for \$200 in favor of Katherine Miller, who was hurt by a defective sidewalk. She stepped in a hole and was thrown to the ground. She sought judgment for \$750 and \$100 for doctor's bill.

UGH! A DOSE OF NASTY CALOMEL

It Salivates! It Makes You Sick and You May Lose a Day's Work.

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee: Ask your druggist for a 50-cent bottle of Dr. Doan's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to get back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Doan's Liver Tonic tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.—Adv.

Mr. Gault declares that Oklahoma farmers have been neglecting their orchards for several years. In some parts of the state excellent orchards have been allowed to disappear before the onslaughts of disease and insects. Practically no spraying or pruning is being done.

Mr. Sanford's duties will be to instruct farmers in the best methods of caring for their trees and enforcing state quarantine and nursery laws.

FRENCH AGAIN IN VERDUN ATTACKS AND ON SOMME

Take German Trenches East of Meuse and Penetrate Foes' Lines at Monacu.

LONDON, Aug. 3.—Operations along the Somme on the western front are momentarily transcending in interest by the situation at Verdun.

Yesterday the French, taking the offensive, made an attack along the three-mile front east of the Meuse, capturing several German trenches and organized points of support. Progress by the French in the Fleury sector, northeast of the Forts, also is announced with the capture of 1,100 Germans in the fighting on the east bank of the river since Tuesday.

In the Somme region the Germans have made renewed attempts to regain the positions they were forced to give up to the French on the Monacu farm sector, near the river, on Tuesday night. These failed, Paris declared, and the new French positions between Monacu farm and Hem wood were organized by their capture. Similarly a German attack south of the Somme near Estrees was futile.

Germans Admit Setback.—The German statement admits French troops have penetrated the German lines on Monacu farm in the region of the River Somme and have taken a section to the north of that position. In the region north of the fortress of Verdun, the announcement adds, the French have recaptured a trench section which they had lost in the Laufen wood.

London reports continuation by the British of the work of consolidation of the ground recently gained by their north of the Somme.

Six Airships Raid England.—Six German airships took part in the raid on the eastern coast this morning, according to an official announcement issued this afternoon, which says that eighty bombs are reported to have been dropped. Nine horses were killed and three horses were injured, the statement adds.

The L-11, one of the Zeppelins which flew along the Dutch coast, apparently was damaged, a Ymuiden, Holland, dispatch says. Her motors were working badly and the steamship had a heavy list. The Dutch coast guards fired on her and they believe that she was hit.

Pajama Parties In Autos Latest Milwaukee Idea

MILWAUKEE, Wis., Aug. 3.—At 2:30 a. m. a night copper rubbed his eyes and started. He saw young fellows and girls and some older ones in an auto but their clothes were the problem to the officer.

At 2:35 there was another load of the same. Then came a procession. They were all in pajamas. This is the latest society diversion in Milwaukee. With the heat intense even in the aristocratic residence districts, the newest stunt is pajama parties in automobiles. Thirty persons, properly chaperoned, comprised the first. Other smaller parties followed with a rush and now the pajama parties are quite the rage.

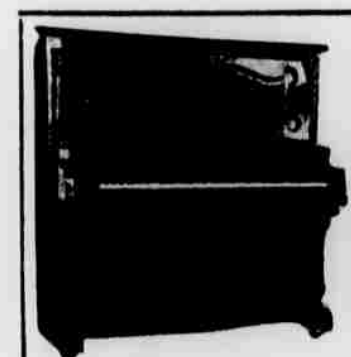

They are chaperoned properly, so the night duty police have decided that they cannot be arrested as disorderly.

"Scientist" With Forked Stick Fails To Locate Oil Hid at Local Exchange

"Scientists" with forked sticks and other apparatus, who offer to locate virgin oil pools for a trifling fee, have added numerous gray hairs to the head of George Ford of the Oklahoma City Oil Exchange.

Yesterday a member of the clan, with the traditional stick reinforced with copper wire and certain mysterious "chemicals," approached Mr. Ford with an offer. In desperation Ford agreed to make a contract with the "Scientist" if he could locate a bucket of oil hidden in the building.

Discovers It—Not.
The crude was secured, placed in the basement, and the stick manipulator told to "go to it." He did. He "located" the bucket four times in four different, but wrong, places.

Finally when he gave up the task and was shown the bucket, he declared the reason for his failure was that there was not a sufficient quantity of oil to make his stick work properly.

First Sale Effected.
The first sale made by the exchange took place yesterday when the Carter Oil company purchased the southeast quarter of section twelve, township
